

UTAH DEMAND MANAGEMENT PILOT PROGRAM

2026 Price River Water Users Association Storage Forbearance Pilot Project Shareholder Application Form - Supplemental Solicitation

The **Colorado River Authority of Utah** (the Authority), in accordance with the Authority's Colorado River Management Plan, is continuing its intrastate **Utah Demand Management Pilot Program** (DMPP) for the 2026 irrigation season. The Authority's goal is to maintain viable agricultural communities by facilitating **temporary, voluntary, compensated, and protected** water conservation through reduced water depletion by water users, ensuring continued compliance with the 1922 Colorado River Compact.

Price River Water Users Association (PRWUA) was selected by the Authority in 2025 to implement a Storage Forbearance Pilot Project (pilot project) in 2025 and 2026. Each year, this pilot project may enroll up to 2,000 acre-feet of conserved water depletion in DMPP, which translates to up to 3,125 PRWUA shares (1 acre-foot per share), and up to \$300,000 in total compensation at \$150 per acre-foot of conserved water depletion. PRWUA shareholders have already enrolled 1,587.50 shares for the 2026 season which equates to 1,442.49 of conserved water depletion savings.

This supplemental solicitation is seeking additional enrollment of shares on a first come, first serve basis up to the maximum levels defined above. Shares proposed for enrollment cannot have been already committed or leased to other water users for the 2026 season.

Under this pilot project in 2026, **PRWUA shareholders** may apply to voluntarily forbear their use of PRWUA shares, leaving their shares in Scofield Reservoir through the irrigation season to be released to Lake Powell after the irrigation season as coordinated by PRWUA, the Authority, and DWRi. Shareholders selected by the Authority for 2026 will be compensated \$150 per acre-foot of conserved water depletion, which translates to about \$96 per PRWUA share. PRWUA will receive 3% of the total compensation amount for each shareholder to cover administrative costs. Shareholders will contract directly with the Authority based on the Template Implementation Agreement and Verification Plan (Attachment A).

PRWUA Shareholders interested in participating in DMPP through the 2025-2026 PRWUA storage forbearance pilot project must return this form and attachments to Amanda Daniels (ajdaniels@utah.gov) by Monday May 3, 2026, 11:59 p.m. MST. Email Amanda with any questions.

1. Purpose. Authority, consistent with its mission to protect, conserve, use, and develop Utah’s waters of the Colorado River system and its Management Plan, has established an intrastate Utah Demand Management Pilot Program (“DMPP”) to explore voluntary, temporary, and compensated agricultural water conservation strategies in the Upper Colorado River Basin portion of the state by temporarily securing water supplies to evaluate water conservation strategies that support Utah’s continued Colorado River Compact compliance.
2. Definitions. The following definitions shall apply for purposes of this Agreement only:
 - 2.1 “Agent” means third parties, if any, engaged by Participant to aid in performance of its obligations.
 - 2.2 “Change Application” means an application filed with the Utah Division of Water Rights by PRWUA on water rights owned by PRWUA for the change in use of water filed pursuant to Utah Code Section 73-3-30(4) to deliver water to a reservoir for fixed period of time.

- 2.3 “Colorado River Compact” means the document signed on November 24, 1922, at Santa Fe, New Mexico, pursuant to an act of Congress approved August 19, 1921 (42 Stat. 171) (Utah Code 73-12a-2).
- 2.4 “Colorado River System” shall have the same meaning as set forth in the Colorado River Compact.
- 2.5 “Order” means a final, non-appealable Order of the Utah State Engineer approving the Change Application absent any conditions that would frustrate the purpose of the Pilot Project or Participant’s ability to participate in the Pilot Project.
- 2.6 “Pilot Project” means the actions taken by Participant pursuant to this Agreement, including the Verification Plan, and actions taken by Price River Water Users Association (“PRWUA”) subject to separate implementation agreements, and subject to the relevant Order that results in Project Water.
- 2.7 “Project Water” means the quantity of water projected to be conserved by the Pilot Project as determined by the Authority defined by both diversion and depletion volumes.
- 2.8 “Upper Colorado River Basin” means those parts of the states of Arizona, Colorado, New Mexico, Utah, and Wyoming within and from which waters naturally drain into the Colorado River System above Lee Ferry, and also all parts of said states located without the drainage area of the Colorado River System which are now or shall hereafter be beneficially served by waters diverted from the System above Lee Ferry, as defined in the Colorado River Compact.
- 2.9 “Verification” or “Verify” means confirmation that the action(s) agreed to by Participant in this Agreement and subject to the relevant Order have been taken, as further described in the Verification Plan.

Authority has no obligation to prepare or defend the Change Application. If the Order is not obtained by March 1, 2026, this Agreement shall terminate without further action by the Parties and Authority will have no further obligation to Participant. - i. This Agreement shall automatically terminate without additional action by the Parties if an Order approving the Change Application is not obtained by March 1, 2026.
- ii. This Agreement shall automatically terminate without additional action by the Parties if the Utah State Engineer curtails the use of the

water rights subject to the Change Application and, as a result, PRWUA is unable to deliver water to Participant.

22.1 By the Parties: Except as specifically provided in this Agreement, modifications of this Agreement shall not be effective unless agreed to in writing by all Parties in an amendment to this Agreement.

22.2 By Operation of Law: This Agreement is subject to such modifications as may be required by changes in federal or state law, or their implementing regulations. Any such required modification shall automatically be incorporated into and be part of this Agreement on the effective date of such change, as if fully set forth herein. Any Party may terminate this Agreement by written notice to the other Party if said changes in federal or state law impact the ability of the Party to perform its obligations pursuant to the terms of this Agreement.

23. No Precedent. Nothing in this Agreement, nor the execution of this Agreement, shall be deemed to establish any precedent for managing or calculating Project Water by Authority or the State of Utah. This Agreement does not establish any right to obtain any similar agreement after termination of this Agreement. Each Party reserves the right to exercise and protect its respective rights, obligations, and entitlements related to use of water as it deems appropriate.

24. Entire Agreement. This Agreement, its exhibits including without limitation Verification Plan (Exhibit A), and its attachments, constitute the entire understanding of the Parties.

The failure of a Party to insist in any one or more instances upon strict performance of any of the provisions, or to take advantage of any of its rights hereunder shall not be construed as a waiver of any such provisions or that Party's relinquishment of any such rights for the future, but such provisions and rights shall continue and remain in full force and effect. Exhibit A to Participating Shareholder Verification Plan

TEMPLATE Pilot Project Description and Verification Plan

Pilot Project Description

Water to fulfill Participant's shares in the Price River Water User Association (PRWUA), (Pilot Project Water, Table EA.1.), is historically stored in Scofield Reservoir and, as requested by Participant, delivered to Participant throughout the irrigation season. As detailed below, Participant agrees to forgo requesting release of and use of Pilot Project Water to allow the diversion volume of water, as determined by Authority, to remain in the system, thereby allowing Authority to compensate Participant for the depletion reduction volume of water, as determined by Authority.

Table EA.1. Pilot Project Water rights and shares enrolled in the Pilot Program.

INSERT WATER RIGHTS & SHARES TABLE

- Participant will implement the Pilot Project by:
 - Forgoing use of Pilot Project Water to reduce depletion and thereby conserve depletion for:
 - Total Diversion Reduction determined by Authority: ###
 - Total Depletion Reduction determined by Authority: ###
 - Taking any actions needed to coordinate with PRWUA.
 - Not ordering water to be delivered pursuant to the PRWUA shares enrolled in the Pilot Program allowing the water to remain in Scofield Reservoir and released by PRWUA between November 1 and March 31 of each Pilot Project year.
 - Recording and reporting all available water measurement data for the Term of the Agreement for each year that the Agreement is in effect.
 - Reporting any significant events that impact the implementation of the Pilot Project to the Authority in writing in a timely manner (floods, fires, etc).

Verification Plan

- The Pilot Project will be verified by:
 - Coordination with and reporting from PRWUA pursuant to the PRWUA DMPP Implementation Agreement for Storage or as otherwise requested by Authority.
 - End of season water depletion reduction and distribution estimation.
 - Authority will estimate actual water diversion and depletion reduction volumes for all Pilot Project Water at the end of the irrigation season. Authority will estimate distribution of Pilot Project Water throughout the Colorado River system after all PRWUA reporting is complete.

- As needed, Participant will timely respond to any questions from Authority about Pilot Project Water measurement, recording, reporting, and distribution.
- Diversion and depletion reduction, and distribution analysis is for reporting purposes only and payment to the Participant and PRWUA shall be as provided in this Agreement.
